DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

- a. In specification, paragraph [0002], lines 7-8, replace "commonly-assigned, copending U.S. Patent Application, No. _____, entitled "Method and Apparatus for Determining Camera Movement Control Criteria", filed _____" by -- commonly-assigned, copending U.S. Patent Application, No. **09/759,486**, entitled "Method and Apparatus for Determining Camera Movement Control Criteria", filed **on January 12, 2001** --.
- b. In specification, paragraph [0018], line 8, replace "U.S. Patent Application, No. _____" by -- U.S. Patent Application, No. **09/759,486** --.

Allowable Subject Matter

2. Claims 1-10 allowed.
3. The following is an examiner's statement of reasons for allowance:

The Gutta reference (U.S. 6,894,714) discloses methods and apparatus for predicting events, such as the next speaker in an audio-visual presentation, comprising a predictive speaker identifier automatically receives and processes audio and visual signals, as well as analyzing the data of the image scene, and it used to automatically focus a camera and obtain images of the predicted speaker. The Norton reference (U.S. 5,704,836) discloses a command system notifies the subject by the flashing LEDs or other dedicated signal when the subject is not in properly positioned.

Neither Gutta nor Norton references, taken alone or in combination, disclose, teach or suggest the limitation, “ indicating means for providing an **advanced notification** to the subjects of the image scene that one of them is about to **become a target** of the camera system”, used in combination with all of the other limitations of the claims 1, 8 and 9.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
 - a. Gutta et al. U.S. 6,894,714 discloses methods and apparatus for predicting events, such as the next speaker in an audio-visual presentation.

Art Unit: 2615

- b. Norton et al. U.S. 5,704,836 discloses a command system notifies the subject by the flashing LEDs or other dedicated signal when the subject is not in properly positioned.
